

Hitch a Mogul Jr. to Your Heavy Housework

YOU have long wanted a clean, simple little engine easy to handle on many jobs. Here it is—the Mogul Jr. 1-H. P.—the proper engine for the housewife. Let it take the dread out of wash day. Let it do your pumping, running cream separator, etc. Make a Mogul Jr. your drudge.

Mogul Jr. is mounted on trucks. It is so simple that a boy or girl can start and operate it—a girl can move it. It is throttle governed—starts and runs on the magneto—no batteries are needed—no switch to close—no wires to work loose or give trouble—operates on gasoline or motor spirits.

It is clean. The enclosed crank case covers the gears and keeps all the oil inside where it belongs.

Every detail makes this the most satisfactory labor saver for the housewife—at a reasonable price. Don't delay. Ask your IHC dealer to show you a Mogul Jr. The larger sizes, 1 to 50-H. P. and tractors 8-16-H. P. to 30-60-H. P., are kerosene engines.

International Harvester Company of America

These prices are F. O. B. Heppner

BUICK DESIGN

BUICK VALVE-IN-HEAD POWER

The rightness of the Buick Valve-in-Head motor and not the enthusiasm of its salesmen has made the Buick conspicuous for leadership.

This new four has a Buick Valve-in-Head motor (with electric starter) which develops thirty-five horse power on brake test and is so reliable for rugged service that no eulogy is necessary among "men who know Buick."

Its lines are beautiful. Finish and color are exceptional. Deep, tufted black genuine leather upholstery. Covered floor and running board, with aluminum bindings, give a trimness of appearance that is peculiarly Buick.

Body, hood, fenders and running gear are painted a glossy, long-wearing black; wheels are black with white stripes. Tires 31x4 inches.
